

I feel that the FCC should not implement any proposal that would lessen Indiana's Telephone privacy law protections. This law has greatly improved my family's time at home! We used to receive several calls a week (at least 2-3 calls a day). Now we only receive an occasional call, and as soon as we mention the no call law the caller quickly hangs up. My wife and I would be greatly upset if this law is appealed! We bought a phone for our convenience and safety. Not someone elses!
